The benefits of mobility:

- The increasing of the language competency.
- Gathering of the work experience, exchange of knowledge in the area of the studied discipline.
- **Broader understanding of practices and better quality of their work.**
- Increasing self-confidence of students, enabling to deal resourcefully with given tasks.
- **Students become more open-minded and tolerant.**
- **Competences gained by Erasmus+ scholars make them more attractive for potential employers to initiate their professional life.**
- Building the awareness of cultural differences between different countries, learning customs and tradition of others.
- **Increased motivation to future activities.**
