

Pharmacy and Professional Continuing Education

ARMAN ÜNEY, PHARM
VICE PRESIDENT, TPA

Structural Problems

- The number of pharmacies are above the needs of the country
- Quantitative and qualitative imbalance between the regions with pharmacies
- More than a thousand students graduates from the faculties every year
- 80% of whom choose to open a community pharmacy

FRAMEWORK OF COMMUNITY PHARMACIES IN TURKEY

- *Law # 6197 has been amended last year:*
- The definition of 'pharmacist' has been updated and the product range delivered from community pharmacy to patients has been redescribed. Furthermore, new changes have been posed to pharmacy practises and the number of pharmacies have been limited in terms of demographic criteria and the concepts of assistant and second pharmacist have been brought forward.

PHARMACY ACADEMY

Established on October in 2002. The Pharmacy Academy aims at contributing to the scientific development in pharmacy in Turkey and contributing to and recommending on the education of pharmacists together with the academic institutions.

The basic fields of activity of this academy are;

- a) Enhancing pharmacy profession,
- b) Arranging continuing Professional education and
- c) Publishing scientific journals

PHARMACY ACADEMY

The team gives continuous Professional education on 31 different subjects.

Some examples:

- Good pharmacy practices/pharmaceutical care/ clinical pharmacy,
- Phytotherapy,
- Safe drug use in elderly people,
