# European Pharmaceutical Students' Association

Dorothea Dalig | Vice President of European Affairs 17/18

# LLeaP = Lifelong Learning Platform

- designed in 2017
- developed from past lifelong learning initiatives (LLP and LLC)
- to encourage a lifelong learning mindset in pharmaceutical students and recent graduates by promoting different educational activities and the exchange of knowledge
- online platform

# LLeaP = Lifelong Learning Platform

How does it work?

- Student attends activity
- Adds activity to their profile
- Writes short reflection about what they learned
- Once a year: overview of activities you participated in

# LLeaP = Lifelong Learning Platform

- **platform includes:**
- brief descriptions of different fields available to pharmaceutical graduates (continuously updated)
- a calendar with educational activities across Europe
- awards for achievements
- blog to stimulate sharing of the knowledge

## What is *LLeaP* ?

LLeaP is EPSA's Lifelong Learning Platform, a platform that promotes and challenges your mindset as a lifelong learner! Here you will have an idea of some skills to develop to become a great pharmacist, but there are more! Anything that you learn and you find useful will be considered. For that, you just need to fill the submission form and we will take care of the rest. For every activity submitted, you will receive an award. Collect those awards to show everyone that you are evolving and developing. There will be some challenges for you and your friends in the platform that will give you extra awards, so keep up with the news.

At the end of the year, you will get a certificate that will certificate your participation in this platform and the submission of the activities you submitted throughout the year. LLeaP is EPSA's Lifelong Learning Platform, a platform that promotes and challenges your mindset as a lifelong learner!

# The Methodology Booklet

- Booklet
- reflects pharmaceutical students' and recent graduates' opinion on teaching methodologies across Europe

# Methodology Booklet

## Goals:

- to stimulate the continuous development of the pharmaceutical education
- share practices e
- encourage students to become more proactive in their quest for knowledge

# Methodology Booklet

- first survey conducted in 2014
- follow-up, extended survey launched in 2018
- a Booklet to be based on a comparative analysis of both surveys
- a new survey to be conducted every 5 calendar years
