

Uniting science, practice and education to improve global health

EAFP Virtual Conference 2020 - Synergism in Pharmacy Education: A new dimension

Ralph Altieri

Chair of FIP Education Executive Committee, USA

Lilian Azzopardi

President of EAFP, Malta

**ADVANCING
PHARMACY
WORLDWIDE**

Vision

A person with a backpack stands on the edge of a rocky cliff, looking out over a vast, hazy mountain range under a blue sky with scattered clouds. The foreground shows dense, colorful autumn foliage.

A world where everyone benefits from
access to safe and effective medicines
and pharmaceutical care

Mission

A close-up photograph of a compass rose with a gold-colored needle. The needle is pointing towards the word 'MISSION' which is printed in large, bold, black capital letters on a white document. The compass rose has a gold-colored base and black markings. The background is slightly blurred, showing the texture of the paper and the needle's shadow.

Improve global health by
supporting the advancement of
pharmaceutical practice,
sciences and education

FIP's Strategy: 6 Strategic Outcomes

- 1 Everyone has access to the medicines they need
- 2 Everyone has access to the health and medicines related information they need
- 3 Everyone benefits from new medicines, services and health technologies
- 4 Pharmacists ensure the responsible and quality use of medicines
- 5 Healthcare professionals and patients work together to ensure comprehensive healthcare for all
- 6 FIP is a vibrant and growing organisation that meets the needs and functions of its members

The background of the slide is filled with a dense, repeating pattern of stylized human figures. These figures are rendered in two colors: a light blue and a light grey. They are arranged in a way that creates a sense of movement and flow, with some figures appearing to be in motion, as if walking or running. The overall effect is a textured, organic background that suggests a large, diverse group of people.

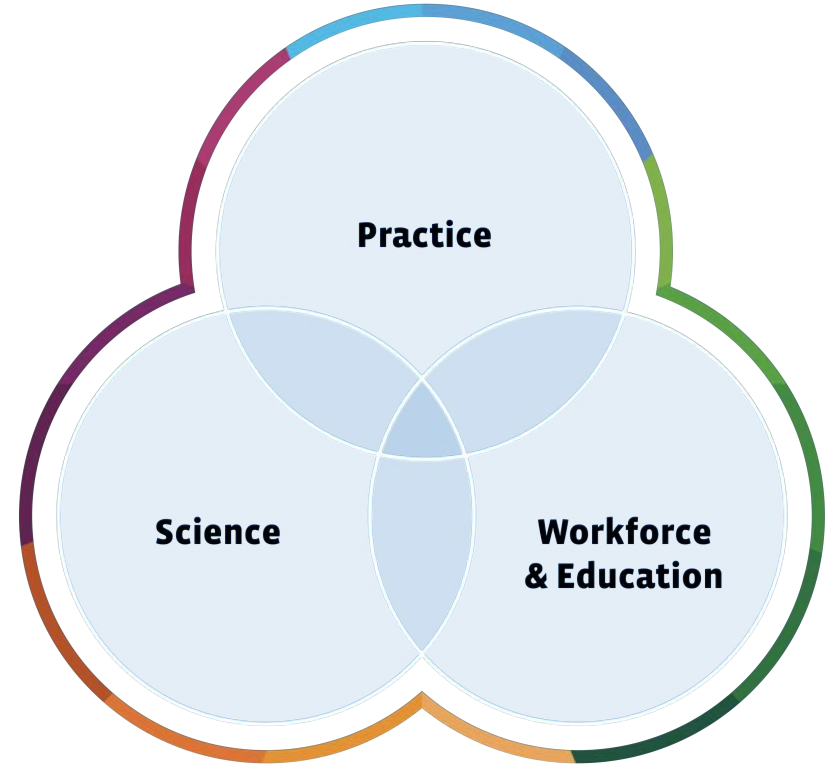

ONE FIP

**No other organisation combines science, education
and practice under one roof.**

“One FIP” goals

One transformative framework to advance pharmacy and health care

We can have no pharmaceutical care without a pharmaceutical workforce, no workforce without education and no pharmaceutical care without a scientific foundation.

Committing to primary health care

In Astana, political commitment to strengthening primary health care was reinvigorated through the 2018 Astana Declaration on Primary Health Care, to which FIP contributed.

Pharmacists, who practice at the hearts of the world's communities, make huge contributions to primary care.

FIP & World Health Organisation Memorandum of Understanding

Aligned with FIP Strategic Plan 2019-2024:

Strategic Outcome #1 Everyone has access to the medicines they need.

Strategic Outcome #3 Everyone benefits from innovations in medicines, health technologies and services.

Strategic Outcome #4 Pharmacists ensure the responsible and quality use of medicines.

Strategic Outcome #5 Work collaboratively to ensure comprehensive and integrated healthcare outcomes for patients.

Strategic Outcome #6 FIP is a cost-effective, unified, vibrant and growing organisation that meets the needs and supports the work of its members.

What?

The 1st Memorandum of Understanding between FIP & WHO to strengthen partnership around workforce, patient safety, PHC and other areas.

Who?

WHO and FIP have been in official relations for more than 70 years.

When?

Signed in May 2019 during the 72nd World Health Assembly.

Primary health care focus

Actions from Astana, to Amman, to Ankara . . .

Collective commitment from Eastern Mediterranean Region leaders

Taking the primary health care agenda into the European Region

FIP Regional Conference for the European Region

FIP and EAFP Collaboration

THURSDAY 14:00 - 15:30

Meeting room Galenos

14:00 - 15:30
Parallel Session A2

Human resources for health: Education & training to meet envisioned pharmaceutical competencies

Supported by European Association of Faculties of Pharmacy (EAFF)

Target audience: Pharmacy education and academic pharmacy, Social and Administrative Pharmacy, Policy and regulation

Session description
Increased importance of a strong primary health care represents an excellent opportunity for pharmacists to take the next leap forward for the profession. The next leap forward requires current and future workforce to receive needs based initial and continuous education and training. This session will explore the imperatives for educating and training current and future workforce to meet the needs of primary health care provision, what are the new models of delivery of contemporary education and training from the primary health care perspective and how practitioners can take a role supporting the education and training of pharmacists to obtain essential competencies.

Learning objectives

1. Explore the needs based education concept and framework
2. Identify the gaps between education and practice for strong primary health care provision
3. Outline strategies for for practitioners to deliver education and training to pharmaceutical workforce
4. Be introduced to country case examples on the delivery of needs based education

CHAIRS
Kristien De Paep / Professor, Department of in Vitro Toxicology and Dermatocology (VITO), Faculty of Medicine and Pharmacy, Vrije University, Belgium
Yusuf Öztürk / Dean, Vice President of Turkish Deans Council, Anadolu University Faculty of Pharmacy, Turkey

RAPORTEUR
Nilay Aksoy / Atılım University Faculty of Pharmacy, Turkey

14:00 - 14:05
Introduction by chairs

14:05 - 14:20
Pharmacy Education in Turkey
Yusuf Öztürk / Dean, Vice President of Turkish Deans Council, Anadolu University Faculty of Pharmacy, Turkey

14:20 - 14:35
Needs based education: Are we equipping the current and future workforce for the next leap of pharmacy?
Ian Bates / FIP Workforce Development Hub Director, United Kingdom

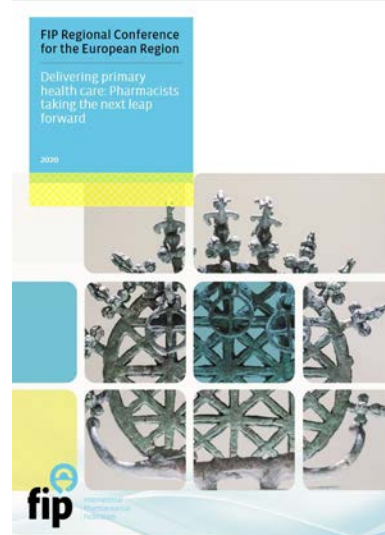

14:35 - 14:50
How to provide harmony in pharmacy and training: A case in Turkey
Gül Doğan / Vice Dean, Istanbul University Faculty of Pharmacy, Turkey

14:50 - 15:05
Bringing primary health care providers closer to pharmacy education
Ariana Melnikovic / FIP Academic Pharmacy Section Executive Committee Member, Croatia

15:05 - 15:30
Q&A and discussion with the audience

Signing the Ankara Commitment to Action
on Primary Health Care

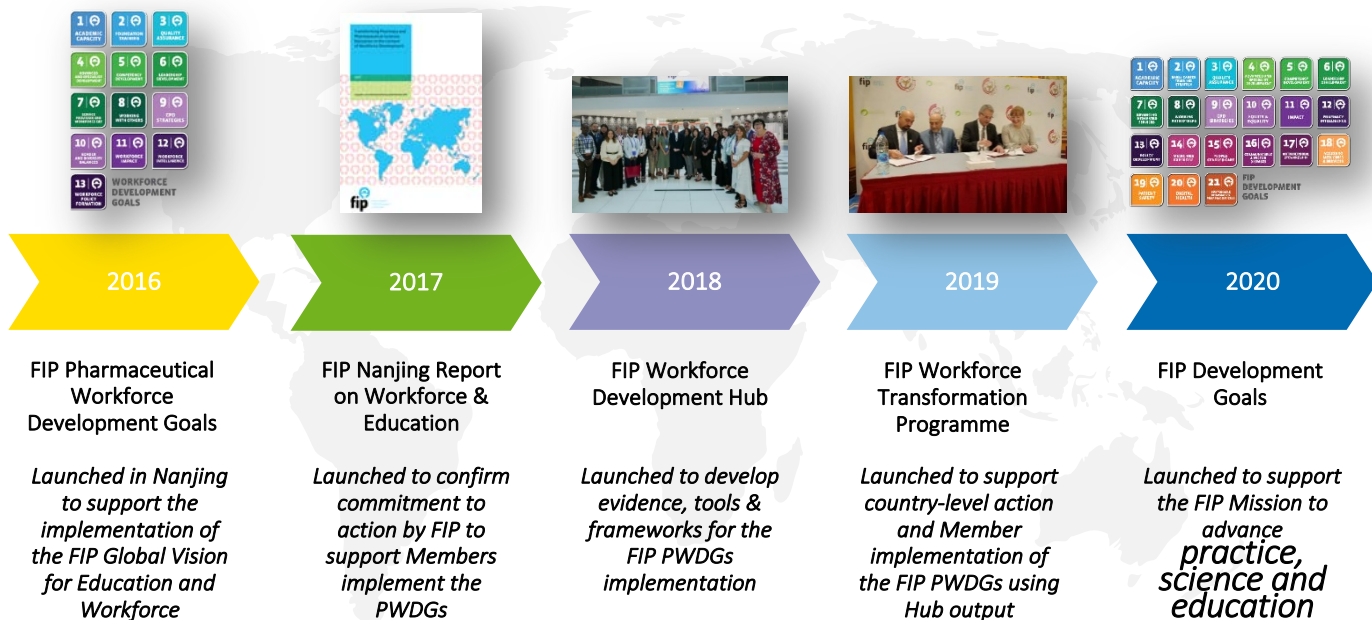

EAFF led the discussions on Education & training to meet envisioned primary health care competencies

FIP-GPO: re-imagining the possible with data

To ensure we work as ONE FIP, we have refreshed the Global Pharmaceutical Observatory

VISION

1. For FIP to deliver on its strategic objectives, we need to evaluate all initiatives with data.
2. The FIP-GPO will become the most comprehensive and most respected source of data and intelligence on pharmacy workforce, pharmacy practice and pharmaceutical science worldwide.
3. The FIP-GPO provides a window on the work and impact of the global pharmaceutical community wherever you are.

FIP Mission

Improve global health by
supporting the advancement
of pharmaceutical practice,
sciences and **education**

FIPEd Structures and Work Groups

Education-enabled, science based pharmaceutical practice

G1 - 11th AIM Global Academic Leaders Forum (GALF)

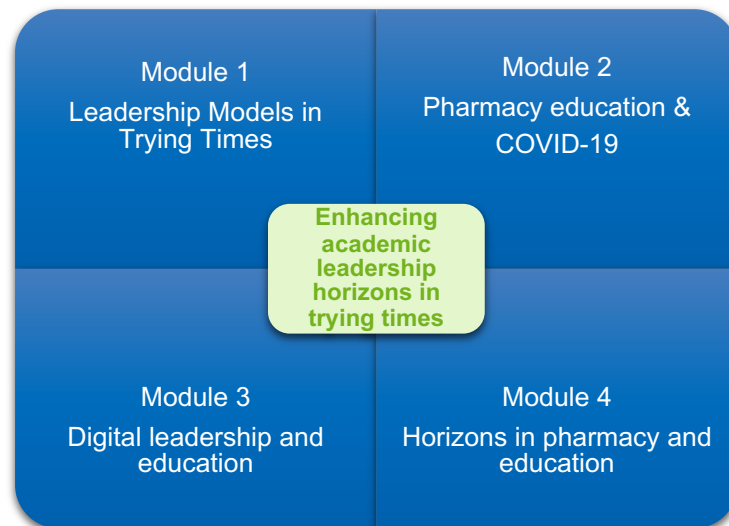

📍 Madrid 1

Day 1: Developing and sustaining a culture of innovation

Day 2: World Café

- Supporting academic pharmacy leaders to **stand out in the global arena** and **shape the future of pharmacy education and practice** even in these challenging times!
- Learn online at your own pace at **FIP's virtual learning platform!**
- **APPLY NOW:**
<http://aim.fip.org/galfp/> , **with special rate for FIP AIM members!**

FIP pharmacy education in sub-Saharan Africa Report

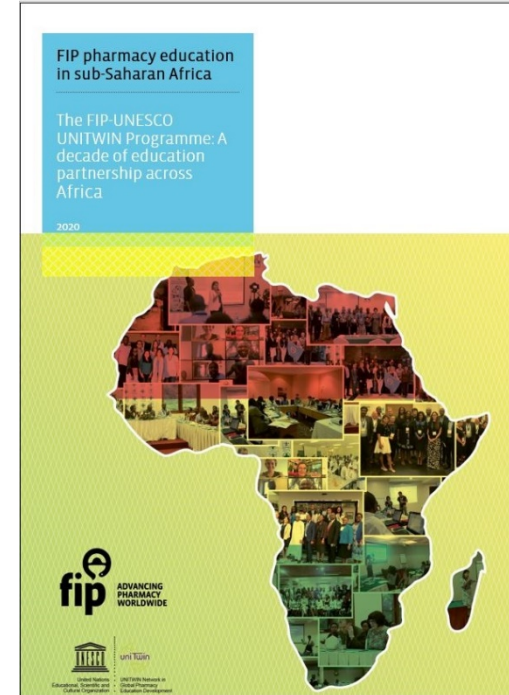

1. **FIRST** of its kind report in FIP's and African history
2. A **DECADE** worth of evidence from FIP-UNESCO UNITWIN Center for Excellence in Africa and countries across Africa
3. Needs and priorities of **PHARMACY EDUCATION** in sub-Saharan African countries, with a focus on academic capacity, needs-based education and advocacy for advancing pharmacy education and the profession

FIP Forum on Technology

FIP Forum

- Brings together experts from within FIP membership to exchange views on current activities (problem areas, best practices, etc.), to find new contacts, and to work together on joint projects that bring some added value and are aligned with the FIP Strategic Plan.
- The Forum is led by a Chair from the FIP Bureau, Dr Jacqueline Surugue

FIP Forum on Technology

FIP Forum

- *Current activities around: Digital trends, “Amazonification”, Use of technology, Mobile health – reflected in the FIP Events/Congress Programme;*
- *Opportunity to review the **FIP Digital Health in Pharmacy Education report** – based on results to steer the direction for the most useful tools for practitioners and educators*
- *Contribution to BPP special projects, namely the special project on Online pharmacies, the HAMIS Digital health working group and to the statement that is being planned on Digital Health;*
- *Working on definitions of terms and taxonomy;*
- *The Forum will also undertake a mapping exercise of existing resources for pharmacists about digital health.*

The background of the slide features a photograph of the Seville skyline, specifically the Giralda tower of the Seville Cathedral, visible through the branches of a tree. A large, semi-transparent yellow rectangle is overlaid on the lower half of the image, serving as a backdrop for the text. The bottom of the slide has a yellow and white geometric pattern.
